Summary of reasons for decision:

The computer moving image file is deemed objectionable under s3(2) of the Films, Videos, and Publications Classification Act 1993 (FVPC Act) because it promotes and supports the exploitation of children for sexual purposes. The file explicitly depicts a man performing sexual acts on a young girl, and salaciously focuses on the child's nudity. As such, the publication is a record of a child's sexual abuse. For those with a sexual interest in children, the publication serves

to legitimise and encourage that interest.

The Classification Office has considered the effects of the New Zealand Bill of Rights Act 1990 on the application of the classification criteria. The classification of this publication interferes with freedom of expression, but this is an outcome that is consistent with Parliament's intention that publications falling under s3(2) of the FVPC Act are deemed to be objectionable. The classification is also a reasonable limitation on the freedom of expression that reflects the concern of a free and democratic society to limit the availability of publications that promote and support the exploitation of children.
